SEE RE_____ ___ __ _____ ACTION

MEMORANDUM FOR: THE RECORD

SUBJECT: Meeting at _____ Regarding   25X1
Project _____   25X1

                                                      25X1

2. **Attendance:**   25X1

3. **Discussion:**

    a. The purpose of the meeting was to brief _____ on   25X1 25X1
the ____ requirements. This was done by means of a review of the   25X1
____ project outline supplied by SR to APD. This document was left
with _____ for his future reference. A receipt is   25X1
attached.

    b. It was agreed that _____ would begin work on the   25X1
project immediately and that approximately 30 days be devoted to
the preliminary study. After briefly reviewing the ____ project   25X1
outline, _____ requested permission to definitize the study to a   25X1
specific solution of the ____ problem. This was agreed upon. As   25X1
a result of this decision, _____ felt that a second meeting should   25X1
be held at the end of the 30 day preliminary study to answer operational
type questions that might arise. It was proposed that _____ come   25X1
to Washington during mid-December to meet with APD and SR representa-
tives. _____ also proposed a meeting with the radio transmitter   25X1
design people to straighten out problems of inter-connection requirements.
Such a meeting will be arranged if feasible.

    c. ____ proposes a collection system which would in effect   25X1
collect, store, and transmit raw data about _____ to an   25X1
outside receiving point. The take would be processed, analyzed, etc.,
at this receiving point. By doing this, _____ feels the reliability   25X1
and life of the collection device can be increased 4 to 5 times. With
certain minor exceptions, ____ felt certain that a solution to the ____   25X1 25X1
problem was easily obtainable and that hardware could be produced within
a 12 to 18 month period. The present study contract is to run 2 man-
months beginning the first week in November, and will probably end with
a final report in mid-January.
